Sir,

Adverting to Govt order No 1446 - C.B. 135-19-3
dated the 6th instant appointing Mr. A.K. Byad Rajkaran
to act as Deputy Commissioner and District Magistrate
District Mysore respectfully to submit as follows:-

I am a Senior Asst Commissioner and
a Senior to Mr. Byad Rajkaran and my working in the
Accounts Deptt. Mysore. I submit that in my
way to higher places which are open to the Civil
Service. In the natural course I should have got the
acting place the time so as to carry a salary of Rs. 1000
and it seems to me that the place
of Deputy Commissioner is equal to that of a Commissioner
either in the matter of prestige or pay. It is to give
me what is just & my due. I am of the view that
been working in the interests of Government Service
in another Deptt. is to prejudice my claims for
a promotion.

I may also note in this connection that when
Mr. J. Hirayanaiah was made to supercede
all other men, Messrs. H. Rajagopalachari & Thambiah

have specially allowed ^{and} to ~~spec~~ the rank of
Jag Commissioner and in this case when
a junior has been preferred a like Commission
is not been extended to me.

If I am not to expect any promotion
but to serve out my lifetime in the Accounts Dept
that is an office qualified for having Kammanah
for the highest posts in the Acc. Dept and
examination for other depts. ^{in the service} as Jag
may be specially fixed as that of Jag Commissioners.

Hope you will kindly & command
my care to get to obtain for me that justice that
is hitherto been denied.

It is presumed that the appointment will be for a limited term and that a share of the cost will be borne ^{by} the Govt. of Madras and Coorg. It will be well to make these points clear.

Whether met from Sandal oil factories budget or from the forest budget the measure involves additional expenditure and as it is necessary to incur it to safeguard the interests of Sandal wood or Sandal oil revenue I would suggest some less urgent items like the appointments of Forest Engineer, Forest Chemist & Forest Economist may be definitely be ordered to be deferred for some time.

Subject -

Appointment of a Bio-Chemist to investigate the spike disease of sandalwood.

According to His Highness' orders, dated the 13th November 1919, Dr. Coleman was informed that, as Mr. Appleyard's services were not available for employment as Bio-Chemist in the State, he ^{might} ~~may~~ make further enquiries and submit fresh proposals in the matter.

2. Dr. Coleman says that his personal efforts to secure the services of a suitable man have been of no avail and suggests that the appointment may be advertised and applications invited and that he may also be permitted to request Mr. C.L. Hutchinson, Imperial Agricultural Bacteriologist, now on long leave in England, also to look out for a man.

3. The matter was considered in Council at the Meeting held on the 24th May 1920 and the following resolution was arrived at:-

" The appointment of a Bio-Chemist may be sanctioned if the expenditure is met from the sandalwood revenue, or, counted against the appointments of Forest Chemist and Forest Engineer that have been sanctioned. The selection of a suitable man may be made in consultation with the Board of Scientific Research under the Privy Council. "

4. The sandalwood revenue forms the most important item of our forest revenue, and the Forest Department is, therefore, specially interested in seeing that our revenues from this source suffer no reduction in the future. The appointment of a Forest Chemist has been sanctioned. It may be possible for us to get a man as a Bio-Chemist who may take up some of the work intended to be assigned to the Forest Chemist and efforts will be made to secure some one who may do some work as a Forest Chemist also. As the appointment of a Bio-Chemist is, however, more urgent than that of the Forest Chemist, the appointment of a Forest Chemist may be postponed till the problem of spike disease is satisfactorily

agreed to contribute one-third of the cost of the Bio-Chemist.
